FOR IMMEDIATE RELEASE

Azerbaijan Exported 20.2 million tons of oil in 2013

In 2012 export of oil made-up 34.935 million tons, including 5.989 million tons in April

Baku, Azerbaijan -- The State Customs Committee (SCC) informs that for January-July 2013 the oil export reached 20.229 million tons (in accordance with control and measuring instruments data), including 2.94 million tons in July against 2.91 million tons in July and 3.019 million tons in May.

News.az reports that only 14.335 million tons for \$11.59 bn (i.e. 70.86% of overall export) passed official registration on cargo custom declarations, including 2.137 million tons for \$1.65 bn in July.

Average export price of Azeri oil, according to customs statistics, still makes up \$808.72 per ton in 2013, including \$773.35 in July, \$767.68 in June, \$761.19 in May, \$815.43 in April, \$865.42 in March, \$846.67 in February and \$824.42 in January.

For January-July of the year it was carried 2.26 bn tons via Baku-Tbilisi-Ceyhan (BTC) named after Heydar Aliyev, 2.26 million tons via Baku-Supsa pipeline, 993,170 tons via Baku-Novorossiysk pipeline and 542,342 tons by rail via Baku-Batumi route.

In 2012 export of oil made-up 34.935 million tons, including 5.989 million tons in April (the best index in 2012 and for all-time export). Official registration on cargo custom declarations recorded only 24.2 million tons for \$20.2 bn, i.e. 69.4% of overall export. Average export price of Azeri oil, according to customs statistics, made up \$834.53 per ton in 2012.

Last year it was carried 27.999 million tons via Baku-Tbilisi-Ceyhan (BTC) named after Heydar Aliyev, 3.9 million tons via Baku-Supsa pipeline, 1.997 million tons via Baku-Novorossiysk pipeline and 1.015 million tons by rail via Baku-Batumi route.

Over 2011 the country's oil export reached 37.45 million tons of oil (data of controlling and measuring appliances) and cargo custom declarations recorded only 27.825 million tons for \$22.911 bn, i.e. 74.3% of overall export. Average export price of Azeri oil, according to customs statistics, made up \$823.39 per ton in 2011. In 2011 it was carried 30.658 million tons via Baku-Tbilisi-Ceyhan (BTC) named after Heydar Aliyev, 3.812 million tons via Baku-Supsa pipeline, 1.996 million tons via Baku-Novorossiysk pipeline and 982.801 tons by rail via Baku-Batumi route.

In 2010 the country exported 31.86 million tons of crude oil for \$18.45 million versus 27.829 million tons for \$11.989 million in 2009.

By 1 January 2011 the pipelines pumped (data of controlling and measuring appliances) 4.414 million tons of oil (including 3.066 million tons in December) against 41.29 million tons in 2009 and carried 1.24 million tons (70,626 tons) by rail against 1.399 million tons. It was pumped 2.247 million tons out of the total transportation via Baku-Novorossiysk oil pipeline in 2010 (against 2.48 million tons in 2009), 35.18 million tons (34.57 million tons) via BTC, 3.985 million tons (4.235 million tons) via Baku-Supsa oil pipeline.

In 2008 the average export price of Azerbaijani oil reached \$565.67 per ton (including \$373.89 per ton in December of that year), in 2009 - \$430.83 per ton (\$547.66 per ton in December), in 2010 - \$579.19 per ton (\$630.18 per ton). In 2011 the average export price was \$683.65 per ton.

Over January-July 2013 overall export from Azerbaijan totaled \$13.046 bn.
