BINDER BUILDER

Organize your binder and your binder will organize you.

The binder is the most widely used tool for planning a wedding. Besides your betrothed, your binder will prove to be your new best friend during your engagement period. Your binder is a home for all your important information. **It helps you plan like a pro, even if you are a novice.** Every wedding category becomes a tabbed section of the binder for easy reference and organization. Tabbed sections get labeled and contain places for your planning calendar checklist, attire, cake, caterer, ceremony, florist, music, parties, photographer, reception, transportation, videographer, vendor interview worksheets and more. **Start organized, stay organized.**

Reduce your stress by keeping organized. **The secret is having the things you need where you need them, when you need them.** Whether it is a flyer, a print-out from a website, photo or just a great idea, know where to place it for convenience and safe keeping. No one recognizes the need to be organized more than someone who is planning a wedding. Use your binder to keep worksheets, keepsakes, quotes, ideas and all your wedding dreams. HAPPY PLANNING.
